## Providing safety solutions to industry

Scotgrip® anti-slip Gangway treads will provide robust, durable, high traction safety surfaces for your marine gangways. These products are designed to fit onto your existing gangway structure and the safety of your personnel is greatly enhanced when walking up or down steep angles even in wet or oily conditions.

Marine gangways are renowned for being extremely dangerous, especially when the angle of the gangway is steep and the surface is wet or oily or both. Some gangways have metal or wooden spars across the surface which can be a trip hazard in itself. By installing Scotgrip® anti-slip gangway treads not only is this slip hazard eliminated but the lifespan of the underlying material is greatly increased.

Scotgrip® anti-slip Gangway treads have been designed in three different styles (stepped, bar and elliptical) to suit your individual location. These treads are non load-bearing and must have a suitable underlying structure to be secured to.

Scotgrip® anti-slip Gangway treads offer high visibility when boarding and disembarking all types of marine vessels by highlighting the raised treads. We have a wide range of colours to suit your individual location which will make your gangways safer.

*Call us with your requirements. Eliminate 'Slips & Trips' on your gangways.*

- High traction anti-slip safety products
- Tough and durable
- Fire rated, spark and friction tested
- Eliminates 'Slips & Trips'
- Standard sizes and custom made
- Fully guaranteed
- Non corrosive
- Easy to fit

# Heavy duty anti-slip safety products

- **High-traction anti-slip profile**

Scotgrip® gangway treads provides a sound footholding even in the most extreme conditions. Scotgrip® gangway treads eliminate high accident statistics, recorded every year for 'Slips & Trips'.

- **Highly visible**

Colour coded in a wide range of colour schemes to suit individual locations. Fluorescent and photoluminescent finishes are also available.

- **Heavy duty**

Scotgrip® gangway treads are extremely durable and remain highly effective for many years.

- **Standard sizes or to customer specification**

Scotgrip® gangway treads are manufactured in a wide range of standard sizes. We regularly manufacture custom made products to suit individual locations.

- **Ease of installation**

Scotgrip® gangway treads are designed for quick and secure fitting, either by mechanical fixings, or bonding to existing surfaces. Scotgrip® gangway treads are pre-drilled where required to aid installation. We recommend using our own fastening systems for securing Scotgrip® products.

- **Quality - it's what drives us**

All Scotgrip® products are manufactured to the highest standards using highly compatible raw materials at our premises in Banchory, UK.
