## Scotgrip® Anti-Slip Safety Products

Scotgrip (UK) Limited are manufacturers of high quality, heavy duty anti-slip safety products for stairways, walkways, decks, ladders, ramps, gangways and pipes and is well established as the leading force in heavy duty, anti-slip safety products in industries including Oil & Gas, Marine, Energy, Construction, Transport, Paper and Food & Drink.

In the workplace, 'Slips and Trips' make up one of the highest accident statistics. Our products are uniquely designed to eliminate these accidents even in the harshest working environments.

Scotgrip® anti-slip safety products incorporate the unique Scotgrip® high-traction, anti-slip safety surface which gives a sound foot-holding in the most extreme conditions. These tough and durable products are manufactured under BS EN ISO 9001:2008 quality controlled conditions comprising of a reinforced composite base and a graded aggregate surface. As a Scotgrip® quality standard, these products are fire rated, spark and friction tested.

- Eliminates 'Slips and Trips'
- Cost effective / Easy to fit
- High traction anti-slip safety products
- Tough and durable
- Standard sizes and custom made
- Fully guaranteed
- Fire rated, spark and friction tested
- Non corrosive
- Reflects positively on personnel performance
- Watch videos of Scotgrip Pipewalkers in action on [YouTube](#)

### EASE OF INSTALLATION

Scotgrip® safety products are designed for quick and secure fitting, either by mechanical fixings or bonding to existing surfaces. These products are pre-drilled where required for quick installation. Scotgrip® products are non-load bearing and must have a suitable underlying structure to be secured to. We recommend our own fastening systems and adhesives for securing Scotgrip anti-slip safety products.

### QUALITY – IT'S WHAT DRIVES US

All Scotgrip® products are manufactured under BS EN ISO 9001:2008 quality controlled conditions using highly compatible raw materials at our premises in Banchory, UK.

### HEAVY DUTY

Scotgrip® safety products are extremely durable and remain highly effective for many years.
