

## GANGWAY SAFETY

# Scotgrip® HD Anti-Slip Gangway Treads

Scotgrip® HD anti-slip Gangway Treads incorporate the unique Scotgrip® high-traction anti-slip safety surface which gives a sound foot-holding in the most extreme conditions. These heavy duty, tough and durable products are manufactured under BS EN ISO 9001:2015 quality controlled conditions comprising of a reinforced composite base and a graded aggregate surface. As a Scotgrip® quality standard, these products are fire rated, spark and friction tested.

Marine Gangways are renowned for being extremely dangerous, especially when the angle of the gangway is steep and the surface is wet or oily or both. Some gangways have metal or wooden spars across the surface which can be a trip hazard in itself. By installing Scotgrip® HD anti-slip Gangway Treads not only is this slip hazard eliminated but the lifespan of the underlying material is greatly increased. Scotgrip® HD anti-slip Gangway Treads have been designed in 3 different styles (stepped, bar and elliptical) to suit your individual location. These heavy duty products are easily fitted onto open grating/grille, chequered plate or wood.

- Eliminates 'Slips and Trips'
- Cost effective
- High traction anti-slip safety products
- Tough and durable
- Standard sizes and custom made
- Fully guaranteed
- Fire rated, spark and friction tested
- Non corrosive
- Easy to fit over existing Gangways
- Reflects positively on personnel performance

*Step into a safer environment with Scotgrip®*
