

LADDER SAFETY

Scotgrip® HD Rungmate® Anti-Slip ladder rung covers

Scotgrip® HD Rungmate® anti-slip Ladder rung covers incorporate the unique Scotgrip® high-traction anti-slip safety surface which gives a sound foot-holding in the most extreme conditions. These heavy duty, tough and durable products are manufactured under BS EN ISO 9001:2015 quality controlled conditions comprising of a reinforced composite base and a graded aggregate surface. As a Scotgrip® quality standard, these products are fire rated, spark and friction tested.

Ladder rungs are made in all shapes and sizes and can become extremely dangerous when wet, oiled or oily. By installing Scotgrip® HD Rungmate® Ladder rung covers (square or round) not only is this slip hazard eliminated but the lifespan of the ladder rung is greatly increased. These heavy duty products are easily fitted onto existing square and round ladder rungs using adhesive. Our standard safety yellow ladder rung covers highlight each rung when climbing or descending the ladder. These products significantly enhance ladder safety.

- Eliminates 'Slips and Trips'
- Cost effective
- High traction anti-slip safety products
- Tough and durable
- Standard sizes and custom made
- Fully guaranteed
- Fire rated, spark and friction tested
- Non corrosive

HEAVY DUTY

Scotgrip® HD Rungmate® ladder rung covers are extremely durable and will remain highly effective for many years.

STANDARD SIZES OR TO CUSTOMER SPECIFICATION

Scotgrip® HD Rungmate® ladder rung covers are manufactured in a wide range of standard sizes (see table opposite). We regularly manufacture custom sizes and shapes to suit individual locations.

EASE OF INSTALLATION

Scotgrip® HD Rungmate® ladder rung covers are designed for quick and secure fitting, by bonding to existing ladder rungs with adhesives. Scotgrip® products are non-load bearing and must have a suitable underlying structure to be secured to.

QUALITY – IT'S WHAT DRIVES US

All Scotgrip® HD safety products are manufactured under BS EN ISO 9001:2015 quality controlled conditions using highly compatible raw materials at our premises in Banchory, UK.
